MATS FOR PROFESSIONAL USE

## **BRAND OVERVIEW** BROCHURE

# INDUSTRIAL MATTING

Notrax® offers the perfect solution for a variety of workplace conditions and designs. From individual work stations, to large assembly lines and complex layouts we have products that fit your unique needs. Notrax® matting is designed to take the physical size and preferences of the worker into account, to provide the right balance between softness for comfort and hardness for stability.

## DRY AREAS

Top Model #'s 419, 479, T17

- Different thicknesses and substrates allow for varying levels of ergonomic comfort
- Durable workstation mats for multi-shift operations
- Yellow borders and beveled edges available for added safety

## WET AREAS

Top Model #'s 549, 550, 562

- Drainage systems keep moisture below worker surface
- Anti-slip top surfaces for traction
- Anti-fatigue properties for added comfort
- Varying levels of durability to meet your needs

## GREASE/OIL AREAS

Top Model #'s 620, 650, 850

- Numerous compounds to meet the harshest applications
- Rugged anti-slip top surface
- Several products available with gritted top surface
- Withstands oils, greases, cutting fluids, chemicals and more

## UNIQUE CONFIGURATIONS

Top Model #'s 460, 556, T17

- Dry or wet area products to meet your unique needs
- Easy to install onsite
- L shapes, semi-circles, full circles and other custom configurations are available

## SPECIALTY AREAS

Top Model #'s 665, 826, 830

- High voltage switchboard mats available in commercial varieties and military grade
- ESD mats offered for conductive and dissipative solutions
- Mats for critical environments for contamination control

## EXTENDED LENGTHS

Top Model #'s 479, 975, 979

- Long aisle solutions for dry industrial environments
- Continuous runs with no valleys for a seamless look
- Beveled or straight edges to meet your needs

## ENTRANCE MATTING

Up to 80% of interior soil is brought into facilities from foot traffic, but with the utilization of entrance matting the majority of that dirt can be stopped at the door. Walk off matting can reduce floor maintenance costs and extends the life of the floor by absorbing much of the initial abuse. Notrax entrance mats also help reduce the risk of slips and falls due to wet and slippery floors.

### INDOOR ENTRANCE

Top Model #'s 118, 130, 166

- Varying degrees of crush resistance and absorption for every entryway
- Professional, attractive patterns and colors
- Non-slip backing and textured top surfaces for added safety

### OUTDOOR ENTRANCE

Top Model #'s 340, 345, 592

- Made from heavy-duty rubber to remain flexible while withstanding extreme cold
- Non-slip top surface for wet, slippery areas
- Non-slip rubber underside

### RECESSED

Top Model #'s 370, 593, 323

- Rubber and carpet combine to make the ultimate entrance matting system
- Durable rubber holds up in harsh weather conditions
- Carpet scrapes shoes dry
- Drainage options available

## CUSTOM LOGO MATTING

Logo mats serve as multi-functional entrance mats that stop dirt and debris while promoting your brand or message.

### HEAVY TRAFFIC

Top Model #'s 373

- Suitable for indoor and outdoor applications
- Up to 54 ounces of needle-punch yarn per square yard
- Stylish berber carpet surface in attractive colors

### MEDIUM TRAFFIC

Top Model #'s 193

- Suitable for indoor use
- 24 ounces of cut-pile nylon yarn per square yard
- 22 base colors available
